PROFESSIONAL EXPERIENCE

IT Network & Support Officer

CashUnited SAL - Beirut, Lebanon | 2024 - Present

- Administer Windows Server environments including Active Directory, DNS, DHCP, IIS, user accounts, permissions, and Group Policy.
- Manage user and access administration using ManageEngine ADManager and support Privileged Access Management (PAM) processes.
- Deploy and secure work-from-home endpoints using CrowdStrike EDR and BitLocker encryption.
- Maintain enterprise servers and infrastructure using HPE hardware, RAID, iLO, VMware, Hyper-V, and Lenovo Nutanix disaster recovery systems.
- Configure and support Fortinet firewall policies, IPsec VPN tunnels, FortiAuthenticator, and FortiClient VPN for secure remote access.
- Configure and support Yeastar PBX systems, Yeastar TG400 VoIP GSM gateways, SIP trunks, extensions, call routing, and related IP telephony connectivity.
- Support network infrastructure and connectivity including TCP/IP, DNS, DHCP, VLANs, PoE, structured cabling, and Cisco IP phones.
- Monitor endpoint security with CrowdStrike EDR and security events/logs using Wazuh SIEM.
- Manage enterprise backup and recovery operations using Veeam, Datto, and Acronis.
- Administer Google Workspace accounts, device policies, collaboration services, and Google Cloud Platform resources and permissions.
- Support enterprise applications and troubleshoot software, hardware, endpoint, peripheral, and connectivity issues for business users.
- Install, configure, maintain, and troubleshoot network and local printers, scanners, POS printers, and other business peripherals.
- Create and maintain IT documentation including system configurations, troubleshooting procedures, support records, and technical documentation.
- Manage IT hardware inventory and stock, including equipment tracking, allocation, replacements, and maintaining accurate inventory records.

Tier 2 Technical Support Engineer

CME - Supporting Dollar General (USA) | 3.5 Years

- Delivered remote Tier 2 support for retail POS systems, enterprise infrastructure, store technology, and end-user incidents.
- Troubleshot Linux systems using SSH and command-line tools and assisted with Windows and Linux operating-system and POS software deployments.

- Supported retail technologies and vendors including NCR, Toshiba, Glory Global Solutions, Cisco Meraki, Ingenico payment terminals, and hardware peripherals.
- Configured SQL Server Management Studio and executed SQL queries for application and incident troubleshooting.
- Managed incidents, service requests, escalations, and support workflows using ServiceNow.
- Diagnosed network connectivity, software, operating-system, hardware, printer, scanner, and peripheral issues.

IT Support / Assistant IT Manager

Baroody Group - Beirut, Lebanon | 9 Months

- Provided IT support across multiple branches, including Sports 4 Ever retail locations.
- Installed, configured, and maintained Windows and Linux operating systems, business software, and endpoint hardware.
- Deployed and supported VMware and VirtualBox virtualization environments.
- Supported POS systems including Minerva POS, Omega, and VBIg and assisted with SQL Server environments and database connectivity.
- Installed and maintained CCTV surveillance systems and biometric/fingerprint attendance machines.
- Performed PC assembly, hardware troubleshooting, structured network cabling, peripheral installation, and general IT maintenance.
